

Health & Safety of Great Britain – Be Part of the Solution

Ms Jane Lassey

Head of Operations FOD Wales

Health & Safety of Great Britain – Be Part of the Solution

A new strategy?

Stakeholders & ownership

Worker involvement

Avoiding catastrophe

Securing justice

Support for SME's

A reminder for all

Health & Safety of Great Britain – Be Part of the Solution

What does that mean for HSE/LA
regulators?

What does it mean for you?

More partnership working?

More of the same?

A step change?

Health & Safety of Great Britain – Be Part of the Solution

Leadership

Recognise it...

Describe what good look like
.....in your business

Make it happen...

Leading Process Safety: What does that look like?

Raising the bar on process safety management, leadership and safety culture, ***and it all begins with Leadership (April 2008 MHL conference):***

1. Leadership from the top.
2. Process Safety management taking place at all business levels.
3. Real and dynamic risk assessments.
4. Robust Management of Change approaches.
5. Sustainability, with the business focussing on long-term performance.
6. Well trained and competent people.
7. A learning organisation.

Health & Safety of Great Britain – Be Part of the Solution

Enforcement

A tool for the regulator

Proportionate and transparent

Has a place and will continue

**Events lead
change!**

Health & Safety of Great Britain – Be Part of the Solution

Buncefield & BP Texas City
Key lessons / not new

CA investigation

MIIB report

Industry response – BSTG

True collaboration?

Significant step changes

Health & Safety of Great Britain – Be Part of the Solution

What will continue?

IoD promote/ SME support

What will be done differently?

Competence/Third party system

What new work?

Non unionised premises.

What about others?

Training of safety reps

Health & Safety of Great Britain – Be Part of the Solution

Step change without big event

Compelling reason for change

Make it happen

Health & Safety of Great Britain – Be Part of the Solution
